Upcoming publications

Carraro, J.A.H., Prezzi, M., Salgado, R. (?), Shear strength and stiffness of sands with plastic or non plastic fines. Geo-Congress 2014, ASCE (submitted).

Chatterjee, S., Randolph, M.F., White, D.J. (?), A parkable piezoprobe for measuring cv at shallow depths for offshore design, Geotechnique, submitted Feb 2013. [NB: technical note].

Chatterjee, S., Randolph, M.F. and White, D.J. (?) A parkable piezoprobe for measuring cv at shallow depths for offshore design. Géotechnique (submitted March 2013 ).

Gaudin, C., B. Bienen, et al. (?), The mechanisms of jetting extraction of spudcan in soft clay, Géotechnique: (accepted January 2011).

Kong V., Cassidy M.J., Gaudin C. (?), A study of footprint geometry to jack-up reinstallation near existing footprint. Canadian Geotechnical Journal (Accepted 24 January 2013).

Stanier, S. and White, D.J. (?), Improved image-based deformation measurement in the centrifuge environment Géotechnique, in review.

Tian, Y. and Cassidy, M.J. (?), Equivalent absolute lateral static stability of on-bottom offshore pipelines, Australian Geomechanics. Accepted.

Vulpe, C., Bienen, B., Gaudin, C. (?), Predicting the undrained capacity of skirted spudcan under combined loading. Submitted to Ocean Engineering.
